ABOUT ME

I am currently pursuing a Master's degree in Digital Design and approach my work with commitment. I am motivated to keep learning, value collaboration, and am looking to take my first steps into a professional environment where I can apply and develop my skills in a practical and meaningful way.

EDUCATION

- Master's Degree in Digital Design | **Polytechnic Institute of Cávado and Ave (IPCA)**
  2025 – Present

- Bachelor's Degree in Multimedia and Communication Technologies | **University of Aveiro**
  2022 – 2025

SKILLS

- **Design & UX:** UI/UX Design (web and mobile), interaction design, accessibility and inclusive design, typography design and development
- **Communication & Content:** Digital communication, content creation for social media, storytelling, branding and rebranding
- **Multimedia:** Image and video editing, sound for multimedia, basic 2D and 3D modelling and animation
- **Web & Technology:** HTML, CSS, basic knowledge of JavaScript, databases and server-side concepts
- **Soft Skills:** Teamwork, time management, critical thinking, adaptability, attention to detail

PROJECTS

Deseed – Smart Waste App (Academic Project)
- Design and development of a web app focused on environmental sustainability, using JavaScript, databases and Bootstrap, with a focus on UI/UX and interaction.
- Grade 17 out of 20

Janes – Website Redesign for a Fashion Concept Store (Academic Project)
- Academic project focused on the redesign and front-end implementation of a desktop website, centered on UI/UX, information architecture, and editorial-driven interface design. Built using HTML and CSS, with high-fidelity prototyping in Figma.
- Grade: 19 out of 20
